REMARKS

25X1X

SOURCE

1. Six biplanes painted gray and without special marking continually made local flights at the Magdeburg-South (W 53/E 69) airfield between 8:30 a.m. and noon on 31 January 1950, in good weather.
2. Boxes were being unloaded from a civilian truck in front of the officers billets on Hahnenmannstrasse, at the air force headquarters on 6 February 1950. The driver said the unit was to be transferred.

25X1A

Comment:

The occupation of the field apparently has not changed in recent months. The presence of a small air force unit in Magdeburg has been frequently reported; its mission not known. The alleged transfer of this unit is reported for the first time.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
